

## **NEW MEANS OF TRANSPORT ON POSTING TO UK? .....THINK AHEAD**

If you intend to take a New Means of Transport back to UK on posting you are required under SOBA(G) 3213 to have the vehicle BFG registered for a *minimum of 7 days* before BFG Form 414 can be issued. However, the administrative process surrounding this requirement needs to be started at least *3 weeks* beforehand.

The process and estimated timelines are laid out below:

- Complete BFG Form 60 and submit to C&I BFG who will process and issue BFG Form 80.      Post - 2 days  
BFG 80 production – 3 days  
TOTAL                      5 days
  
- Complete BFG Form 20 and submit to BFG VLO (Main) for registration who will return registration to applicant.      Post – 2 days  
Registration process – 5 days  
TOTAL                      7 days
  
- Complete BFG Form 414b and submit to C&I BFG who will process application and return BFG Form 414 to applicant.      Post – 2 days  
BFG 414 production – 3 days  
TOTAL                      5 days

You are therefore advised to start the process for registration and subsequent issue of BFG 414 at least *3 weeks* before you are due to return to the UK. All timings shown are achievable however due to unforeseen circumstances these time lines may be further extended.
