

WHO WE ARE

We are a small club of approximately 30 members who fish the only military stocked (Trout) fly only lake in the Rheindahlen area. The lake is about 6 acres fed from the local area run off.

The lake was formed when the camp was in RAF hands by a very keen station commander who had an area established from the local water catchment area.

We only allow fly-fishing on the lake from the three small boats, no bank fishing or wading is allowed. The local area has an abundance of

natural wildlife including: bats, pole cats, coots, mallards and even a terrapin!
