FIND BFG MEDICAL SERVICES ONLINE

British Forces Germany Health Service web pages have been given a fresh new look in an effort to clarify how to access local medical services and create a platform to communicate up to date public health information relevant to the BFG community, in the best possible delay.

To this effect the site navigation was redesigned so that it is more intuitive and patient friendly. The content was reorganised to answer the patients' main areas of interest and concerns such as the out of hours service and contact numbers for the medical facilities.

Important public health information, as well as the latest health promotion campaigns can be accessed directly from the homepage and will link to relevant advice and resource material.

The new pages are hosted on BFGNet and can be accessed by entering the following address in the internet browser <http://www.bfgnet.de/bfghs/bfghs.html>

If you feel some information is missing from the web pages, do not hesitate to get in touch with us via the 'Contact us' page.
